

## A GOOD TIME TO LOOK AT THE EQUITABLE LIFE MONEY MARKET FUND SELECT

Whether clients are looking for a short-term cash savings solution or are interested in funding a dollar cost averaging strategy, the Equitable Life Money Market Fund Select may be an ideal solution.

With a current yield to maturity\* as of April 24, 2024 of **5.30% gross (3.95% net after deducting the management expense ratio)**, the fund provides maximum income through short-term investments consistent with preservation of capital and liquidity.

For more information, contact your Regional Investment Sales Representative.

\* Yield to Maturity: The market value weighted average yield to maturity includes the coupon payments and any capital gain or loss that the investor will realize by holding the bonds to maturity.
