## with Segregated Funds

### The Equitable Life Investment Advantage

When you invest with Equitable Life®, you are entitled to features that protect your investment throughout your life, and assist in the efficient transfer of assets when you pass away. Many of these features are unique to insurance investments, and may not be available in a traditional mutual fund. These features include:

- Maturity and death benefit guarantee options to protect your investment
- Bypass probate and associated fees by naming a beneficiary
- No early redemption fees at death
- Quick payment to beneficiaries after you pass away
- Private and confidential beneficiary designations
- Creditor protection may be available in the event of bankruptcy or lawsuit

### Mutual Funds versus Segregated Funds

While mutual funds and segregated funds share many similarities, segregated funds have unique estate planning advantages because they allow a beneficiary to be named on a non-registered investment. Unlike mutual funds, the investment proceeds are paid directly to the named beneficiary(ies), bypassing the administrative costs associated with the estate settlement process.

## Case Study

Jim and Joan are two individuals, both in retirement, each with \$250,000 of non-registered savings. Jim decides to invest in mutual funds. Joan decides to invest with Equitable Life, and selects segregated funds with a 100% death benefit guarantee\*. Jim and Joan both pass away unexpectedly after their funds experienced a 10% decline in market performance.

**Jim's investment** was paid to his estate since his investment was not eligible to have a beneficiary designation. As a result his estate incurred a number of fees, and took nearly a year to settle.

**Joan's investment** was privately paid to her beneficiaries within a couple of weeks of her passing away. Her beneficiaries received more than the market value because of the death benefit guarantee, and avoided the costs and delays of the payout going through the estate.

Joan's death benefit was over **\$60,000** more than Jim's because she invested in segregated funds.

|                              | Jim's mutual funds | Joan's segregated funds |
